

**Space Foundation Discovery Center Audience with an Astronaut™
Field Trip sponsored by
USAFA Office of STEM Outreach**

Thanks to a generous gift from the United States Air Force Academy (USAFA) Office of STEM Outreach, the Space Foundation is offering to select middle and high schools the extraordinary opportunity to participate in an Audience with an Astronaut™ Discovery Center field trip.

The Space Foundation will be hosting former NASA astronaut Lt. Col. Duane “Digger” Carey. We will sit down and have a conversation with “Digger” to find out a little bit about who this man is, how he became motivated to overcome some of the societal & economical barriers, his life as a fighter pilot, and what led him to become a NASA astronaut.

Who is eligible for the Audience with an Astronaut™ Discovery Center field trip:

- Grades 6–12

Field trip includes:

- A subsidy for bus costs up to **\$250**. Following the field trip, each school will need to provide an invoice or recap report from the school’s transportation department to the Space Foundation Discovery Center. **Transportation invoices must be submitted by May 31, 2020 or awarded subsidy will be forfeited.**

Field trip dates/times:

Discovery Center Audience with an Astronaut™ field trips dates and time.

March 6, 2020	9:00am
May 8, 2020	9:00am

How to apply:

Schools/Educators interested in applying for this scholarship opportunity must complete and submit the application form found at www.discoverspace.org/education/scholarships
